Evotec has an extensive experience in providing solutions to the education sector. We have developed an intimate understanding of the products and solutions most relevant to the education market.

We understand the differences between the provision of solutions for an academic environment, and a commercial environment.

More and more educational institutions are undertaking major upgrades of their networking, computing, broadband data, BYOD, laptop and slate storage and security systems.

Our education customers have confidence that Evotec understands the products developed specifically for the education market, and how to adapt generic solutions to suit education requirements.

We are committed to helping schools provide a supportive and optimal learning environment.

For an expert solution for your education communications requirements, contact us on 1300 133 996.
