More about Cisco

What Cisco do

Cisco develops, manufactures and sells networking hardware, software, telecommunications equipment and other high-technology equipment and other high-technology services and products.

Cisco Solutions

Networking

Network management - Use a single dashboard to automate processes and optimise performance with analytics

**Switching** - Build a network with switches that constantly learn, adapt and protect

Wireless - Provide an immersive experience with secure, fast and reliable products

Routing - Simplify your WAN architecture and make it easier to deploy, manage and operate

Network Security - Get secure connectivity with centralised management that keeps cost low

Small Businesses - Deploy simple, flexible and secure solutions designed for small business

Software

Turn your vision of an intelligent network to reality with Cisco Software

Security - Cisco security products give you the scope, scale and capabilities to keep up with the complexity and volume of threats . Find, stop and remove malicious content easily while gaining trust in your users with Multi-factor authentication

Networking - Cisco networking solutions take a software-delivered approach to automate and assure services across your WAN, campus and branch networks. Unlock policy based automation, secure connectivity, end to end visibility analytics and assurance in your network.

Wireless and Mobility

Immersive experience on mobile are becoming the new normal, not only does your network need to be secure, it must be fast and reliable. With access points and wireless controllers that support the Wi-Fi 6 standard, Cisco provides an intent-based architecture to meet customer expectations and scale for growing business demands.

Comprehensive security - Cisco wireless has features that monitor the network and locate and mitigate security threats, giving you peace of mind

Data-optimized intelligence - the intelligence and data gathered by Cisco products helps optimise your network and boost its efficiency

Reliability beyond the standard - Cisco support for Wi-Fi 6 and new technologies allow for better experiences and fewer interruptions

About us

With a portfolio unequalled in its breath and flexibility, over 30 years' experience and three national offices, Evotec are committed to designing, implementing and supporting innovative technology solutions based on the unique requirements of your business.
