

One company, six divisions, infinite possibilities

Evolving Worlds, Evolving Technologies

Previous

Next

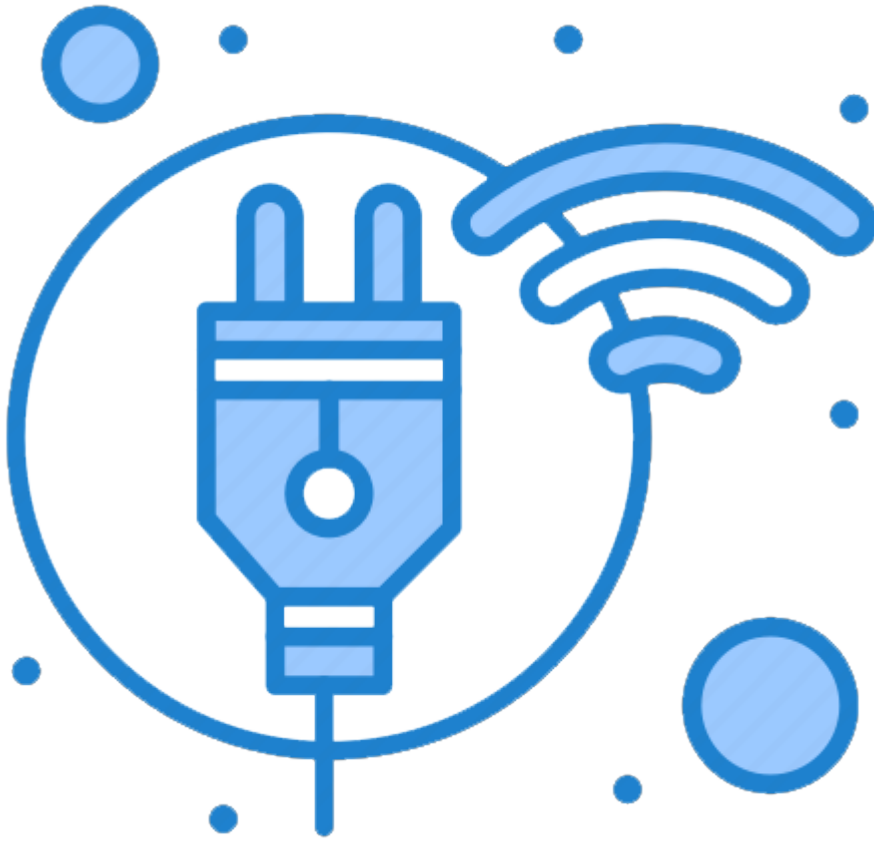

## Telephony

Design and deployment of traditional and IP telephony, with complementary solutions; mobility, CTI, call accounting, messaging

### IT Services

From simple desktop solutions, through to national networks. IT can help companies cut costs and improve communication, build recognition and create more innovative and attractive procedures.

## Infrastructure

The design, supply, deployment and support of structured cabling and electrical services.  
From simple to complex configurations.

## Carriage

The assessment, design, provisioning and account management of Telstra services, for the optimum combination of voice and data services

### Business Support

Our National Customer Service centre, technical Help-Desk and PriorITel maintenance agreements confirm our commitment to supporting your business.

### Hosted and Managed Services

Dedicated hosting packages and fully managed services to ensure your systems are working successfully

“Easy system to use, with great training and support from a reliable team.”

Trent Redlich

CFO -Nowra Private Hospital

DR Planning

Organisations cannot control whether they will be affected by a natural disaster, extended power outage or any other unplanned incident. However, they can ensure their business is prepared to respond and recover from these events with minimal disruption or impact to the business.
