

The HTC One pushes the boundaries of smartphone design with dual frontal speakers, advanced imaging technology and full metal construction. 

Boasting a 1.7Ghz quad-core processor for seamless multi-tasking, 4G connectivity and a stunning 4.7" full 1080p HD display, you'll have everything you need to live your connected life.

#### HTC One Key Features

**4G** - Customers in 4G areas will be able to download and upload at super fast speeds, with less waiting and buffering. Your emails, status updates, eBay bids all come to you lightning fast. You can get music and games at amazing speed, which means less time downloading, and more time listening, watching and playing. When outside 4G coverage areas they'll switch to our fastest available 3G speeds.

**BlinkFeed** - Get all your favourite content streamed live onto one screen with HTC BlinkFeed. Information and updates appear in real-time when anything new happens so you can catch up on life with a single glance.

**BoomSound** - If you want the ultimate sound experience you'll want BoomSound with Beats Audio™. The advanced software delivers authentic studio-quality sounds whether you're listening to music, watching a video or playing a game. And with exclusive built-in amplifiers and dual frontal speakers, you'll be able to share sharper, richer sound with your friends.

**ImageSense** - Capture vivid, true-to-life images even in low light conditions thanks to HTC's ImageSense. And with continuous autofocus and Optical Image stabilization, your photos will be fit for a gallery wall.

**Big Memory** - 32GB shared internal memory

#### Why Telstra?

- Exclusive Black
- Connects to 4G on the Telstra Mobile network, which has more than double the 4G coverage of any other network.
- Affordable outright price (great to buy outright on a No Lock In Plan)
