InfoBrief

Travel light at full power with the HP EliteBook Folio 9470m. With long battery life, and at just 18.95 mm thin, it's HP's thinnest EliteBook yet. Yet the 14" diagonal display makes it a real workhorse.

There are a range of battery options which will last from up to 8 to 21 hours. The battery isn't integrated so you can swap it out yourself. And you can easily attach a slice battery and extend power for hours and hours.

With HP Premier Image, the full set of EliteBook business software and anti-virus protection is automatically included.

You're protected at every layer with HP Client Security. HP BIOS Protection keeps you up and running with enhanced protection against virus attacks.

Third Generation Intel® Core™ i7, i5 or i3 dual-core processors with vPro technology are built for business. You'll enjoy control, security and remote manageability — all at a price that makes sense.
