

### HP's sleek office printer

HP's HP ENVY120 e-All-in-One is a stylish printer /scanner/copier solution for executive offices and remote workers.

The Envy120 has HP ePrint which lets you print via email without drivers and cables – You just email your documents to your printer and the printouts will be there waiting for you. Features include the ability to print directly from the web, email and more with your iOS devices (iPhone 3GS/4/4GS/5, iPod and iPad).

And you can find the best printers available based on your location and print needs. Simply click File and Print, select available printers and print to your home, office or HP ePrint Public Print Locations.

A see-through scanning lid allows quick and accurate placement of scanning materials. Whisper quiet printing and low profile switchblade paper tray that swings out during printing. And it lets you charge your USB-compatible mobile devices easily with the front mounted USB charging port.
