Standby Time: up to 225 hours*

SAR Head: 1.18 W/Kg @ 10g

SAR Body: 0.989 W/Kg @ 10g, 15 mm spacing

Please Note:

*As per manufacturers claim

1. Requires a FaceTime-enabled device. Availability over cellular depends on carrier policies; data charges may apply.
2. App count refers to the total number of apps worldwide.
3. Actual size and weight vary by configuration and manufacturing process.
4. All battery claims depend on network configuration and many other factors; actual results will vary. Rechargeable batteries have a limited number of charge cycles and may eventually need to be replaced by an Apple service provider. See www.apple.com/batteries for more information. For more details of iPhone performance tests for talk time, standby time, Internet use over 3G, Internet use over Wi-Fi, video playback, and audio playback, see www.apple.com/iphone/battery.html.
