

Business Telephone System

A business telephone system is a multiline telephone system typically used in business environments, encompassing systems ranging in technology from the key telephone system to the private branch exchange.

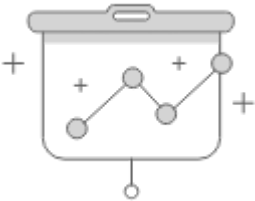

Future proof with software upgrades

Multi-Location, Remote Worker Capability

Your network is no longer limited

Keep logs of all incoming and outgoing calls

Unify OpenScape business

On-Premise	hybrid	Cloud
 <p>Operation in own Company</p>	 <p>On-premise mixed with Cloud Perfect for Migration / Transformation</p>	 <p>Datacenter Operation, Fully virtualized</p>

Unify's OpenScape Business platform is a contemporary, future-proof solution for the communication and collaboration needs of today's small and medium sized businesses.

Unified Communication takes all the ways your staff communicate and integrates them into a single place in a flexible, user friendly and scalable solution. What your staff get is a consistent user experience however they choose to use the system.

Create a Single Communication Hub!

Remote Worker Capabilities

UC mobility lets you do everything in the office, without the office. There are several options available for achieving business mobility.

UC mobility lets you collect a call on your mobile when an inbound call hits your business extension, so your business number is the only number you need to hand out.

Mobility doesn't just apply to the mobile device. Users can log-on to system handsets deployed in the reduce, in satellite office or at home. Relocate extensions and benefit from all of the rich system features that let you conduct business and keep the operation running smoothly.

Enhanced Security Measures:

- Signalling and Payload Encryption
- Authentication Required
- Different Registration Ports

Benefits and Values

- Use a familiar business phone also at home or everywhere with Voice and UC
- Save costs: no VPN infrastructure needed (important for smaller companies)

About us

With a portfolio unequalled in its breath and flexibility, over 30 years' experience and three national offices, Evotec are committed to designing, implementing and supporting innovative technology solutions based on the unique requirements of your business.
