

Alcatel-Lucent 9 Series range of Digital phones offers excellent user comfort with high sound quality, hands-free speakerphone and acoustic echo cancellation.

The Alcatel-Lucent 9 Series Digital phone range comprises:

4019: Provides all the advanced telephony features without the frills – a simple, compact phone with a range of useful functions (ergonomic design; direct access keys for voicemail, directory, mute and redial; 6 programmable keys; easy to install, easy to use).

4029: A user-friendly, value-added phone for intensive use, the 4029 has an ergonomic design with display screen and navigation and shortcut keys; alphanumeric keyboard with dial-by-name function; outstanding audio quality in all modes: handset, headset and speaker-phone; easy to install, easy to use.

4039: A function-rich phone designed for intensive business use. It has an ergonomic design with large, user-friendly screen; extra navigation and shortcut keys for intensive phone users, including senior executives; alphanumeric keyboard with dial-by-name function; outstanding audio quality in all modes: handset, headset and speaker-phone; easy to install, easy to manage.

Alcatel-Lucent 9 Series Features

Smooth, automatic transfer from headset to hands-free for group listening without the need to remove the handset from its cradle.

Headset Port – the 4029 and 4039 digital sets come with a built-in port for the use of a headset, additional speaker or teleconferencing system.

Navigator – the phone navigator feature makes the display more user-friendly by allowing you to scroll in up to four directions. The navigator, along with the context-sensitive soft keys, provides easy access to the Alcatel-Lucent system's many features.

More Dedicated Function Keys – gain direct access to your mailbox or directory, or simply redial or ask the terminal for help.

Audio control functions – loudspeaker volume control, hands-free audio control, mute etc. – are separate from the system's functional keys to allow easy and clear audio control for the user.

Display – The Alcatel-Lucent 9 SERIES offers rich visual information on large, adjustable displays. These range from a one-line screen of 20 characters to an adjustable four-tone gray scale graphical display.

Intuitive Icons and Software Keys – knowing the status of a call is simple with easy-to-understand icons. The dynamic soft keys change according to the call context, displaying call handling features in active communication mode. Extra programmable keys are provided to further customise usage.

Alphabetic Keyboard – The Alcatel-Lucent 4029 and 4039 digital sets are equipped with an integrated alphabetic keyboard, exclusive to Alcatel-Lucent, which provides easy access to the "call by name" function via the company directory and to messaging services.

60-Degree Foot-stand – All terminals have an optional 60 degree foot-stand to minimise the footprint on your desk and optimise the display angle for comfortable viewing.

Available in ice blue or urban gray
