As a leader in fixed, mobile and converged broadband networking, IP technologies, applications, and services, Alcatel-Lucent offers the end-to-end solutions that enable compelling communications services for people at home, at work and on the move.

The Alcatel-Lucent Office Communication Solutions for SMBs offer business-grade network infrastructure, communication-collaboration and mobility solutions, delivered across broadband and mobile networks. These solutions provide the cost control, security and usage features that support the needs of SMB customers.

Office Communication Solutions that enhance your competitive edge

Alcatel-Lucent OmniPCX Office RCE turns every day enterprise communications into meaningful and collaborative conversations.

This converged communications suite lets people converse and collaborate seamlessly across devices, media and locations.

Limitations fade away. People are free to engage with colleagues, customers, partners and suppliers in the best way to accelerate business. And IT departments can finally deliver more advanced communications services without fear of increasing complexity or costs.

Alcatel-Lucent Office Communication Solutions improve your competitive advantage through:

- Increased employee productivity
- Improved customer satisfaction
- Reduced operational costs.
