Symphonia Voice Conference enhances team effectiveness by minimising expensive 3rd party conferencing services and reducing travel costs.

Take control and reduce costs with your in-house audio conferencing system, configured to suit your specific requirements.

Improve your team collaboration and decision-making.

Powerful: Simply record your conferences, enable live monitoring

Simple: Permanent conference rooms, e-mail invitations

Cost effective: Eliminate costs of third-party conference hosting

Secure: Password-protected conference rooms – no eavesdropping

Scalable: Unlimited meetings and attendees

High Compatibility: Compatible with all major IP-PBX systems and web-browsers

Reliable: Designed for high availability and reliability.
