Yealink

Yealink is a global leading provider of enterprise communication and collaboration solutions, offering video conferencing service worldwide. Yealink has built up a panoramic collaboration solution of audio and video conferencing by merging its cloud services with a series of endpoint products.

Yealink Optima HD IP Conference Phone (CP960)

The Optima HD IP Conference Phone has a user-centric design, this Y-shaped conference phone combines simplicity of use with sophisticated features making it perfect for any team environment. The crystal-clear audio will ensure your conversations will sound natural and bright and gives you the option to connect to an external loudspeaker if necessary. The Yealink CP960 provides an outstanding balance between ease-of-use and powerful features, delivering a smarter audio-conferencing solution for your company.

The Yealink CP960 combines hardware and software, including the Yealink Noise Proof Technology, a 6 meter and 360 degree voice pick up range and with the addition of two CP wireless expansion Mics the Yealink CP960 can capture audio up to 20 meters with not wiring troubles.

With the Yealink CP960 up to five parties can join a conference call from different locations. Pairing your smartphone via Bluetooth or with your PC/tablet via USB allows you to turn the Yealink CP960 into a loudspeaker or microphone with ease, in addition after successfully pairing you can merge all these devices into one hybrid UC meeting.

Features;

- Optimal HD audio, full duplex technology
- Yealink Noise Proof technology
- 6-meter and 360-degree microphone pickup range
